

SPEECH STRATEGY SESSION

Get to grips with your topic, find your perspective and make your presentation engaging and informative. WINNER.

Book in early to get ahead of the curve or call me when you hit trouble. I'm here to help!

What is it?

A **Speech Strategy Session** is your chance to get clear on your message, why it's important and how to share it best with your audience. It doesn't matter what shape your speech is in – we can work through it together and get you sorted.

Who is it for?

Conference speakers, podcast guests and masterclass leaders who aren't sure what to speak about, don't know how to approach their topic or have a draft but it's just not cutting it.

What do I get?

- A 2-hour recorded Zoom session with me
- A full structured outline of your speech with recommendations for how to share your information for most impact
- An outline of what your visual slides could include
- A free practice session if you want to test it out on a live person.

What do I need to do?

Just book in via my [calendar link](#). You'll be charged at the time of the booking to secure your spot. I'll follow up with an email with next steps.

What do others say?

"No matter the topic, Nyree is able to craft a speech plan that helps you to get your message across clearly, capturing the audience's interest and curiosity. Nyree designs a speech plan that helps you hit the key points and enables you to add your own personal delivery style. She is my go-to for all things speech planning!"
